

BORUCASE[®]

PROFESSIONAL HARDCASES

BC 100

BörüCase hardcases are waterproof, dustproof and dampproof with its strong structure and design. Resistant to harsh climate conditions.

BörüCase offers you protection of military equipment, action cameras, laptop / drones, weapons and ammunition; offers you smart solutions with a variety of foams to fit the case of the product you want to buy.

About Us

BörüCASE design engineers created strong cage structure for using under difficult conditions. During stacking; the cases are held each other and can not move.

BörüCASE is more flexible, more durable and lighter with its special Polypropylene (PP).

Polyoxymethylene (POM) material used in the production of handles so it can carry heavy loads in all kinds of difficult conditions. TPU material is coated on it. It ensures your hand grasping and will never slip off. It has enough space for gloved use.

BörüCASE is designed with locked frame and gasket so dust, moisture, water and chemicals can never go in. With the air valve in the case, the case can keep the internal pressure under control.

BörüCASE absorbs all kinds of impacts; even on very low and very high temperatures with the lock frame around it and it also prevents damage to the product inside. It has also strong structure in accordance with Military standars and lock-latch mechanism.

BörüCASE has padlock sections on all model for extra security.

BörüCASE design engineers will provide you on purpose solutions by evaluating the demands of the special hardcase and interior foam design.

BörüCASE; is registered brand of Gökçeler Makine Ltd. Şti which is active in the defence industry for many years.

Gökçeler Makina founded in 2002, our company has been manufacturing preciese parts for many customers on different industries until 2012. In 2012, the company began to manufacture critical parts for defence industry firms and became a reliable partner of the companies. It worked with in a short time of period with the prescribed quality, on time delivery and competitive price.

Our company, which has Design, Engineering, Mold Design and Production capabilities, started to produce hard cases for supporting defence industry firms in 2017.

Borucase produces hardcases with smart solutions with foam design in accordance with the requests of our customers.
